mar 8 2017   user kokos answered the wonderful hidden features of c question by mentioning the using keyword can you elaborate on that what are the uses of using

oct 31 2020   the using scope modifier is supported in the following contexts remotely executed commands started with invoke command using the computername hostname

dec 27 2013   183 in c 11 the using keyword when used for type alias is identical to typedef 7 1 3 2 a typedef name can also be introduced by an alias declaration the identifier following

oct 29 2019   48 justin lessard s answer explains the difference between using and await using so i ll focus on which one to use there are two cases either the two methods dispose

yes yes either way when the using block is exited either by successful completion or by error it is closed although i think it would be better to organize like this because it s a lot easier to see

by using a joystick or a pointing device an on screen keyboard allows people with mobility impairments to type data the second sentence states that the on screen keyboard is the one

the using statement is used to work with an object in c that implements the idisposable interface the idisposable interface has one public method called dispose that is used to

may 20 2009   2 seems like using c and using vb have an extremely important difference and at

least for me now it can defeat the purpose of using

updating the using keyword was specifically for templates and as was pointed out in the accepted answer when you are working with non templates using and typedef are

with could work but it sometimes connotes along with as in with a companion which is not the case using is the best bet since that connotes using a tool which is what we want also do
